ASBESTOS

Asbestos is a hazardous material when the fibers are released into the air. Exposure to asbestos fibers can cause a variety of illnesses including lung cancer. You should consult with an environmental professional if you suspect that material in your home is asbestos. Asbestos from homes can legally be disposed with regular trash; however, it is very important to inform your waste hauler or label the containers to prevent exposure to the workers. OSHA and NESHAPs regulate businesses with asbestos-containing materials in their buildings. The following listings may provide assistance in sampling, testing, removal and disposal of asbestos.

LIVINGSTON COUNTY SOLID WASTE PROGRAM

BATTERY COLLECTION LOCATIONS

Livingston County recognized a need to provide a convenient way to properly dispose of used household batteries and rechargeable batteries. We worked with local units of governments and other agencies to establish battery collection container drop-off locations throughout the county. The current participating locations are listed below.

Please be sure to call first, as every agency has different office hours. Also, please respect the generosity of these organizations by only recycling during office hours, and only bringing in size “D” batteries and smaller batteries.

Absolutely no automotive or large batteries at these sites. Please see HHW collection events for larger batteries or call Solid Waste at 517-545-9609.

HOUSEHOLD HAZARDOUS WASTE

Some of the Household Hazardous Waste items can be harmful if they are thrown in the trash, dumped down drains or spread on the ground. The best way to reduce waste is to buy only what you need and to use what you buy. Unfortunately, many residents inherit unwanted chemicals from previous homeowners or relatives. The following are three options to safely discard materials such as cleaners, oil-based paint products, mercury, lawn and garden chemicals, automotive products, and many other items.

LIVINGSTON COUNTY RES. HHW COLLECTIONS

E-mail: solidwaste@livgov.com

Website: www.livgov.com/dpw Ph: 517-545-9609

All updates for collection events are on the website. Event dates are updated in March. Accepts household cleaners, Mercury, automotive fluids, oil-based paints, pool, lawn and garden chemicals and much more. See list of descriptions on the website. Currently this is a FREE service for Livingston County residents only. You must make an appointment to participate in this program. Please call: 517-545-9609

✓ *Watch our website for other collection events and special offers. If you would like to be added to email fan-out list.*

Please email us at solidwaste@livgov.com.

Please call.

LANDFILLS, DUMPS & TRANSFER STATIONS

If the item you no longer need or want cannot be reused or recycled by any of the organizations listed in this guide, you still have a few options for disposal. Contact your trash hauler to determine if they will accept the item curbside or if they provide roll-off containers for items like construction debris. Many local units of government also sponsor one-day collections, usually in the spring or fall, where residents can dispose of unwanted items – contact your respective city, village or township for details. Lastly, you can load the items up and take them to the nearest landfill, transfer station or processing facility. **Call first for hours, prices, and restrictions.**

MERCURY

Mercury is a highly toxic metal that emits a colorless and odorless gas. Polluted water and soils are what cause fish advisories in many water bodies. NEVER vacuum or sweep spilled mercury! For questions about Mercury spills, please call the Livingston County Environmental Health Department at **517-546-9858**. Mercury can be transported safely, if double bagged in sealed plastic bags. Contained quantities of Mercury can be brought to the Livingston County HHW collection event (double bagged, please).

Website for Mercury Info State of MI: http://www.michigan.gov/documents/mdch/WhenMercurySpills_214576_7.pdf

See **Thermostats Page 18** for locations to drop off used thermostats. Double bag the Mercury thermostats and thermometers before transporting to recycle. Try to leave the thermostat unit intact, double bag in sealed plastic bags.

Livingston County Household Hazardous Waste (HHW) collection events are posted on the Solid Waste website. www.livgov.com/dpw. Mercury will be collected at the HHW events. Please **double bag** and seal in plastic bags for transporting. Call for info: 517-545-9609.

METAL

Metals are the most commonly recycled commodities around the world. Larger items such as appliances, aluminum siding, cars, and tools contain a variety of recyclable metals. See the "scrap metal" section of the Yellow Pages or try one of the organizations listed below. If you refer to **Automobiles** in this guide, there are organizations that would take your donated vehicle. Call for information.

PAINT – LATEX AND OIL-BASED PAINTS

Buy only as much paint as you need. You can share leftover paint with neighbors or community organizations like theatre groups.

- ✓ **Dried latex paint** is not considered hazardous to the environment. Place dried out paint cans next to your regular trash. Do not put the lids back on the cans. Trash haulers cannot collect closed paint cans/buckets or wet latex paint.

A faster way to dry latex paint: **In a well-ventilated area** - Line a large cardboard box with a heavy duty plastic garbage bag. Pour the latex paint into the bag in the box. It will dry faster because you are exposing it to more air. Stir it occasionally. You can add kitty litter, shredded paper, or a drying product to accelerate the drying. Please be mindful that the paint is out of harm's way for children and pets. Tie up the bag once the paint is totally DRY and put it out next to your trash for pick up.

- **Recycle Livingston** 517-548-4439 and **Re-Store** (Habitat for Humanity) 810-220-9986 will charge you a small fee to send the unwanted latex paint to an e-paint vendor to be reformulated and reusable.
- **Monroe's Material Recovery** 810-231-1055 charge a fee to dry out and dispose of latex paint.

Please call these vendors for current information and prices.

- ✓ **Oil-based paints and aerosol paints** can be brought to one of the Livingston County Residential Household Hazardous Waste collection events or taken to HHW vendors:

See: **Household Hazardous Waste (HHW) on Page 11** or visit website: www.livgov.com/dpw

PESTICIDES/HERBICIDES – Disposal of residential and commercial containers

The Michigan Department of Agriculture manages two programs targeting farm quantities of pesticides, herbicides, other agricultural chemicals, and their containers. The following locations will accept pesticides, herbicides, and any other lawn/garden chemical from any end user, including residences and farmers.

See: **Household Hazardous Waste** in this guide for commercial companies that will take these items for a charge.

Ingham County Health Dept.

517-887-4521

Accepts: Bedding/linens/towels, dog or cat food, office equipment/supplies and pet equipment/supplies.

PHARMACEUTICALS and over-the-counter medicines

Do not flush or pour medicines down the drain. Items that are poured down the drain end up in our watersheds and many water treatment plants are unable to filter out these chemicals. Keep medicines in their original containers, **black out** any personal information, and add a small amount of water or detergent to solid drugs or flour to liquid drugs before recapping. Double bag them in opaque bags and place in your garbage. For more information, call the DEQ information line at **800-662-9278**.

For local disposal: a program called “**Big Red Barrel**” has many Livingston County locations where you can drop off prescriptions or over the counter medicines for disposal. NO QUESTIONS ASKED. See the **Solid Waste** website www.livgov.com/dpw for up-to-date link to the flier. Go to: Big Red Barrel Program Website: <http://livingstoncountycommunityalliance.org>

PRINTER CARTRIDGES

Refillable printer cartridges are available for most printers. In addition, many refurbished printer cartridges are available and are less expensive than new ones. All used printer toners and ink cartridges are recyclable. Many of them have cash value. Look in the *Yellow Pages* for a printer supply store near you.

Staples

8063 Challis Road, Brighton, MI 48116

Phone: 810-227-3980 Please call.

Staples offers recycling of printer ink cartridges with a reward program. Staples, also recycles rechargeable batteries. Staples offer a Trade-In on purchases and a 'Save' program for other office equipment. Please call for current information. (1-2016)

PROPANE TANKS

Any tank under pressure, such as propane, helium, or butane, can cause injury to sanitation workers and equipment if they explode. Propane tanks that are not equipped with the overfill protection device (OPD) cannot be refilled. A quick way to tell if your tank has the device is to look at the valve – if it is triangular, it is ok; if it is round, then it must be upgraded or recycled. Visit www.usemichiganpropane.com for a list of participating retailers or contact one of the organizations listed below. Call first for possible pricing and tank requirement.

SHARPS - Needles, injectors, and lancets

“Sharps” is a broad term used to describe syringes with attached needles, injectable pens and lancets. When disposed with the regular trash, they can be harmful to sanitation and recycling workers. To reduce the dangers of sharps, you may choose to purchase a pre-paid mail container, sold at most pharmacies. Place used needles in the container and take the full container to one of the locations listed below or ask your pharmacy or doctor if they will accept used sharps. Livingston County will also accept sharps in a liquid laundry detergent bottle with the lid taped shut and labeled ‘SHARPS’.

YARD WASTE

Yard waste is banned from landfills and incinerators in Michigan. Grass cycling is an easy and effective way to reduce yard waste. By leaving the grass clippings on the lawn after mowing, you eliminate the need for bagging and reduce the need for fertilizers since the grass clippings provide valuable nutrients and water. Leaves, brush, and pruning can be composted at home. Composting is a natural and simple process of recycling yard waste back into the soil. Visit the Livingston County Solid Waste Program Website for more information on backyard composting.

Some communities and trash haulers offer curbside pick-up of yard waste. Contact your local municipality or trash hauler for more information. There are also two compost farms in the County where you can drop off yard waste for a fee.
